SUMMARY

Holder of a Master degree in web development, I have acquired a strong expertise in designing and creating high-performing websites. Passionate about technology and computer security, I also worked for one year as a cybersecurity specialist, where I gained valuable skills in protecting computer systems. I am constantly looking for new challenges and I am motivated to apply my skills to an ambitious and dynamic company. I also aspire to gain professional experience abroad in order to broaden my perspective and enhance my skills by working with professionals from different backgrounds.

SOFT SKILLS

- Autonomous
- Eager to learn
- Organised, sense of priorities
- Enjoys working in a team
- Motivated
- Positive attitude

SKILLS

- Proficiency in programming languages such as HTML, CSS, JS, Python, Java, etc...
- Knowledge of web security concepts such as cryptography, secure coding practices, and vulnerability management.
- Familiarity with web application frameworks such as React and Vue for front-end development.
- Experience with back-end frameworks such as Node.js for server-side development.
- Understanding of database management systems such as MySQL, MongoDB, and Oracle for data storage and retrieval.
- Ability to perform security audits, penetration testing, and risk assessments to identify and mitigate potential security threats.

WORK EXPERIENCES

08/2021 -
Present

Security Officer

GxpManager

Work on several projects related to the IT security of the GxpManager information system as part of an ISO 27001 certification project :

- Awareness of cyber threats
